

LifeSize® Room™

Experience Communication in High Definition

LifeSize® Room™ delivers high definition video communication and rich features in an affordable, easy-to-use system.

Feature Rich High Definition Video

LifeSize® Room™ combines an immersive, high definition video experience with a rich set of features to deliver a powerful, flexible and easy-to-use video communication solution.

Like all LifeSize products, LifeSize Room delivers telepresence quality, high definition video and audio for a realistic, authentic experience. It makes you feel like you are there, allowing you to do more yet travel less.

Do more. Travel less. Be present.

An ideal fit for large conference rooms, LifeSize Room allows you to establish video calls with multiple participants through the embedded high definition multipoint bridge. Display multiple participants simultaneously with 4-way continuous presence or watch the view change automatically among callers with 6-way voice-activated switching. All without external equipment, advanced scheduling, or a technician.

With the ability to supporting two monitors and two cameras, LifeSize Room delivers the ultimate in flexibility. Presentations, documents and multimedia can be shared with all participants, enabling anyone with dispersed colleagues to collaborate more effectively.

LifeSize designed video communications with absolute user simplicity in mind. Rely on video communications for face-to-face meetings when email and the phone are simply not enough.
